Date and Time	2/17/2026 9:00 - 2/18/2026 1:00 AM Eastern Time
Attendees	Anbazhakan Sengodan, Divya Vinoth, Madhu Anbu, Sankar Thangavelu, Rajarajan Lakshmikanthan, Punitha Sitaraman, Prathiba Prem, Peter Rosari, Sangeetha Ramesh, Arul Xavier Raj, Ganesan Natarajan

Minutes:

---

1. AI meeting notes ability to be explored and added to zoom meeting
2. Email needs to be created for atlargebods. The email will contain short code of their roles like atlargebod.fin for finance etc
3. Since there is a grievance still open on one of the BODs, should we give the existing email to the person or create a new email to the person and just forward the ones he needs.
4. Started the discussion on Technology committee issues
    a. Ganesan explained the problems faced with getting salesforce access from Aravindhan and the resistance faced for the past 40 plus days.
    b. Still we haven't gotten the proper KT, proper migration support, proper documentation from him
    c. Aravindhan was forcing the EC team to invite the 2024 team as well to be felicitated in Pongal event. We sent a reply saying his point is taken and will decide as a Team and send the invite
    d. But he went on asking the OC team members for the event schedule to setup app release event taking things on hand
    e. Majorly he sent an email from gats.tc email address to a set of GB asking apology on behalf of GATS 2026 team wrongly, without proper approval from the team. So we have asked him to retract the email immediately which he didn't do after several follow ups, emails, calls, WhatsApp messages. So we decided to send a retraction email from Secretary email address to the people who got the original email. We had to reset his password to login to his account to look at the recipients in the BCC. And we will give him the access back.
    f. There are a lot of other things like Mobile app, Google account admin access, jira, GitHub, slack etc, which are tied to his gats email id and personal ids. It's difficult to get access to these details.
    g. Moreover, Email from contact us option in gats mobile app goes to gats.tc@gatamilsangam.org email

5. Everyone in the team shared their viewpoints on the issue. At large board members - Madhu, Divya, Rajarajan, Sankar said let's focus on the solution and discuss about taking action on his behavior later. Board member Punitha and the EC team emphasized that the behavior is the problem and should not be tolerated and ignored . Anbu said we all should discuss and decide on the next steps
6. Next steps - everyone is asked to share thoughts on his Aravindhans actions on 2 counts - sending email to GB without approval and not providing necessary access and KT to the secretary and other Tech team members
    a. Sankar- initially refrained from making a comment but after persuading he told that Aravindhans actions are wrong on both counts.
    b. Rajarajan is absent and dropped at 11:30 pm
    c. Divya said he is wrong on both counts
    d. Madhu said he is wrong on both counts
    e. Jega said he is wrong on both counts
    f. Peter said he is wrong on both counts
    g. Arul said he is wrong on both counts
    h. Sangeetha said he is wrong on both counts
    i. Ganesan said he is wrong on both counts
    j. Prathiba said he is wrong on both counts
7. Action to be taken - setup a call with Aravindhan, allowing him the opportunity to explain his actions/mistakes , asking him to give assurance that it will not be repeated, and he has to provide all the accesses and KT and documentation necessary for smooth transition and operation. If he abides by the terms, then we can continue. We need to insist that it should not be repeated. Otherwise we will meet to decide the next steps.
    a. Everyone except Rajarajan and Punitha , who dropped off the call, said yes to this plan of action
    b. Whole board , Aravindhan and Tech liaison will be invited to the call.
